**The B-Street Band:  
A Tribute Band Like No Other**

Tribute bands that showcase the music of the greats abound these days, but only one band pays tribute to The Boss, and has played at events ranging from the 2009 presidential inauguration and Special Olympics fund-raisers, to backyard barbecues and Springsteen preconcert parties all over the Northeast. The Jersey band has been rockin' Bruce Springsteen fans since 1980, making it the longest-running tribute band in the world. The B-Street Band's playlist includes Springsteen's biggest hits and a wide selection from his early albums through his latest release, *Working on a Dream*, as well as a variety of other music from Motown, the '60s, '70s, and classic rock. "B" there as Fusion 2010's opening night rocks with the B-Street Band at a special performance Sunday evening at the Gaylord Texan.
